

Optimal Defense

Total immune support & boost formula

Infectious diseases continue to claim lives

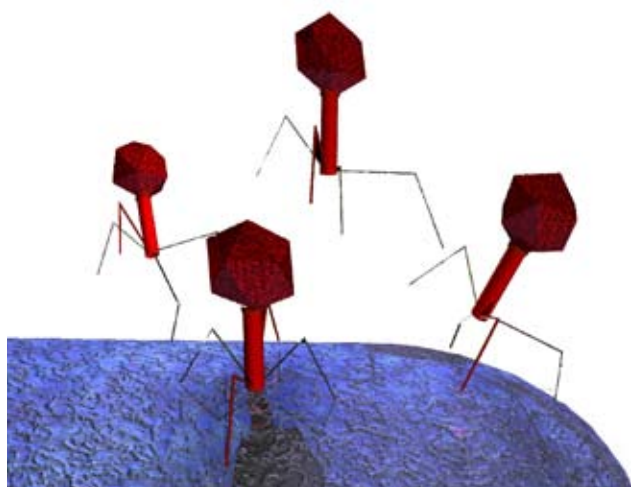

Infectious diseases are the leading cause of death worldwide and the third largest cause of death among Americans. Each year, more than 13 million people die from infectious diseases. Despite the large number of antibiotics available, sickness and disease continue to spread throughout the world as more and more antibiotic-resistant strains of bacteria and viruses continue to develop. In the United States, these "supergerms" have come about as a result of our overuse of antibiotics. According to the Center for Disease Control and Prevention, one-third of the 150 million antibiotic prescriptions written each year are unnecessary. As more and more people continue to overuse antibiotics, bacteria strains have now become stronger than the medicine once used to combat them.

Powerful ingredients = powerful support

If we are to combat these mutating forms of bacteria and viruses, we must look to sources other than antibiotics for treatment and prevention of infectious disease. Choose Optimal Defense for powerful support!

Some of the powerful ingredients contained in Optimal Defense include colostrum, echinacea, beta glucan, and DDS-1 lactobacillus acidophilus. These ingredients have been proven to help support and strengthen the body's own immune system. Colostrum has many benefits from the content of immune supporting nutrients and growth factors that protect the mucous lining of the throat, lungs, and intestines and ward off viruses, fungus, and bacteria that enter the body. DDS-1 lactobacillus acidophilus has been documented, among other benefits, to inhibit the growth of 23 toxic producing microorganisms and has been reported to be resistant to several common antibiotics. Echinacea reduces the symptoms of the common cold and shortens the duration time. Beta glucan has been scientifically proven to modulate the immune response through the work of macrophages and activate the cascade of events leading to a strong immune response.

Optimal Defense also contains a remarkable Immune Complex – consisting of various herbs and enzymes that act as anti-microbials to further assist the body in its defense against viruses, fungus, and pathogenic bacteria.

SUGGESTED USES*

- Immune Support
- Cancer
- Candida
- Colds, Flu, Infections
- AIDS, HIV
- Alternative To Antibiotics

Supplement Facts

	Serving Size 3 Capsules	Servings Per Container 30
	Amount Per Serving	% Daily Value
Magnesium (as magnesium amino acid chelate)	6.375 mg	2%
Zinc (as zinc amino acid chelate)	30 mcg	<1%
Copper (as copper amino acid chelate)	75 mcg	4%
Manganese (as manganese amino acid chelate)	30 mcg	2%
Colostrum (20% IgG)	450 mg	*
DDS-1 Lactobacillus acidophilus**	4.5 Billion CFU	*
Echinacea Pururea	150 mg	*
Anti-microbial Enzymes	90 mg	*
MGG (Magnesium Glycyl Glutamine)	75 mg	*
Astragalus	75 mg	*
Beta Glucan	15 mg	*
Immune Complex (Elderberry, Licorice DGL, Turmeric, Olive Leaf Extract, Shitake Mushroom, Maitake Mushroom, Goldenseal, Lemon Balm, Green Tea Extract, Oregano, Anise)	285 mg	*
Opti-Blend™ Delivery System	30 mg	*

* Daily Value not established

Protection delivered like never before

In addition to containing ingredients that boost the immune system and defend against disease, Optimal Defense also contains the Opti-Blend™ Delivery System. This remarkable Delivery System consists of a special blend of enzymes and minerals that ensure Optimal Defense's powerful, immune-boosting ingredients are delivered and utilized by the body to the greatest extent possible.

Defend yourself NOW!
