The journey to a healthier life STARTS RIGHT NOW

4 out of 5 people take a vitamin and mineral regimen of some kind. You're likely included in that statistic. But, how do you know that the vitamins you're taking are ACTUALLY what YOUR body needs?

Nutrients Rx determines exactly what nutrients your body needs through blood, lab work and a comprehensive questionnaire. Then, based on your lab results and desires, it creates an easy-to-understand report and personalized supplement regimen with everything included.

Instead of spending hundreds of dollars each month on multiple bottles of vitamin supplements, you'll receive an entire Custom Pak of whole food based vitamins, minerals, enzymes, probiotics, and herbs that you know you'll benefit from. How will you know? When you get another set of lab work, you can see the improvement.

Nutrients Rx

How does it work?

1.

Receive the Direct Script from your Health Professional or visit ohs4life.com/nrx-start to purchase Nutrients Rx.

2.

Follow the directions you will receive instantly in your email to access your NRx Portal, finish your Health Questionnaire, and get your blood/lab work done.

3.

We'll create your custom supplement regimen based on your needs and desires and ship it right to your door. Your comprehensive blood & lab work report will be available in your personal Nutrients Rx Portal online. Simply take 1 packet morning and evening each day of the custom pak and work to improve your life style.

4.

Each month, we will automatically send you a refill of your custom supplement paks so you never have to stress over reordering or running out.

5.

Every 6 months, we'll send you a reminder to retest your blood work for only \$349, saving you hundreds. This ensures that your needs are continually being met and your health is improving. If changes to your supplement paks are needed, we'll adjust automatically to ensure you the best results.

6.

After renewing blood work, you can easily compare previous results side-by-side to the new ones so that you can know you are lowering your risk for disease & increasing your energy & longevity.

What DOES IT COST?

The initial one-time purchase of the Nutrients Rx Blood work & Questionnaire program is \$349.

This includes:

- Initial Blood & Lab Work Panel - **\$800 Value**
- Health Professional Review & Protocol - **\$100 Value**
- Comprehensive Lab Report - **\$105 Value**

The automatic monthly shipment of your Customized Supplement Pak cost \$140 per month.

This includes:

- 1 Month Supply of Customized Supplements Based Off Your Needs (60 packets with 7 capsules each)
