

Flora Plus

- **Helps avoid upset stomachs, fatigue, frequent colds/flu, and dairy sensitivity.**
- **Supports intestinal health and improves digestion.**
- **Promotes immune function and overall health.**
- **Contains 9 patented, heat-stabilized, acid resistant probiotics.**

What's Inside:

Patented Probiotics

9 heat-stabilized, acid-resistant probiotic strains needed to inhabit the entire gut completely, produce digestive enzymes, re-program cravings, and inhibit growth of toxin-producing microorganisms.

Jerusalem Artichoke

A root vegetable that supports the probiotics (your gut microbiome) and allows them to function at full capacity without depleting your body's own supply of nutrients. That helps maintain healthy bowel function.

opti-blend™

Opti-Blend Delivery System

The key element that helps in the breakdown of nutrients to be processed by the body and reach the cellular level for maximum absorption.
