

Optimal LipoLean CLA

Why This Supplement?

Each Optimal LipoLean CLATM gel capsule contains one whole gram of the purest Conjugated Linoleic Acid available. For it to be effective, research shows you need to take 4 grams per day for 12 weeks. Your body acclimates to it for the first four weeks, preparing your cells to package up excess fat and remove it from your body. Your body steadily removes up to 4% body fat for the next eight weeks.

There are plenty of whole food supplements out there, but only Optimal Health Systems takes it a step further with its pre-digestion process called Opti-BlendTM. It uses ten kosher-certified, non-GMO enzymes and patented organic minerals to predigest every nutrient before encapsulating.

What Sets Us Apart?

Just like your Health Professional, Optimal Health Systems cares about patients, which is why we exclusively create supplements with nutrients derived from whole foods—not cheap, synthetic alternatives. Rest easy, knowing you're getting the best nutrition possible.

The Results

Fat and craving reduction formula is used to reduce cravings.
