

THE WORLD'S FIRST MICROPLASTICS BLOOD TEST KIT

Identify your microplastics levels so you can proceed with detoxification treatments and remove plastic sources from your daily lives.

STUDY AFTER STUDY HAS SHOWN: **EVERYONE IS CARRYING DETECTABLE AMOUNTS OF MICROPLASTICS THROUGHOUT THEIR BODIES.**

This reality is incredibly alarming, because plastic contaminants are linked to a range of adverse health effects on: Metabolism, endocrine, immunity, inflammation, and more. Long-term exposure is associated with elevated risk of cancer, metabolic syndrome, and a host of other chronic health issues.

PLASTICTEST MAKES A DIFFERENCE BY REVEALING THE TRUTH THROUGH A PEER-REVIEWED & VALIDATED TEST

Our lab partner isolates and measures for microplastic particles and nanoplastics to determine your body's specific exposure levels.

Your results come in a comprehensive screen for the 7 most common commercial plastics.

PLASTICTEST DETECTS THE FOLLOWING 7 COMMON MICROPLASTICS WITHIN YOUR BLOOD SAMPLE:

Polyethylene Terephthalate	PET
Polyamids	PA
Polypropylene	PP
Polyethylene	PE
Polyurethane	PU
Polyvinyl Chloride	PVC
Polystyrene	PS

DETAILED ANALYSIS

Receive information on the number, size, and concentration of microplastic particles in your blood, and see how you compare with others who've taken the test.

CONVENIENT AT-HOME TESTING

You can complete it from the comfort of your home. There is no need for lab visits or appointments. The all-inclusive kit includes everything needed for testing: a collection supplies, shipping envelope, sample kit, and result delivery.

FAST RESULTS

2-3 week turnaround time allows you to access your results promptly, enabling timely health decisions.

A FINGER PRICK TEST TELLS YOU THE KINDS OF MICROPLASTICS CIRCULATING IN YOUR BLOODSTREAM FOR ACTIONABLE HEALTH AWARENESS.

BETTER HEALTH BEGINS WITH MEASUREMENT
