

# Not just Vitamin C, this is Whole C

## Complete, Multi-Part Vitamin

In nature, Vitamin C is more than just ascorbic acid (it's also rutin, bioflavonoid, and J&K Factor). Our formula contains and delivers all four parts.

## Safely Non-Synthetic

It is the safest form of Vitamin C compared to all others because it is built using whole food ingredients - nothing synthetic.

## Neutralize Aging Factors

Because of its ability to neutralize free radicals, Whole C prevents disease and premature aging.

## Natural Cold Fighter

Whole C is wonderful for fighting off colds, and has been effectively shown by studies done for decades to treat and prevent colds effectively.
