

3 Key Ingredients for Cardiovascular Health and Longevity

Whole Vitamin D

Strong, potent form of vitamin D which is essential to the health of most organs.

Powerful Combination

CoQ10 is the “spark plug” of your cells and aids metabolism, while vitamin K2 interacts with vitamin D to create its full form. They need each other to work properly.

Increase Longevity

Research shows that having adequate levels of vitamin D is correlated with increased lifespan.

Nutrients You Need

Supplies vitamin D, CoQ10, and K2 in MK-7 form, which works synergistically to keep calcium out of blood and arteries, and in bones.
